INTRODUCTION

In religious life, basically belief is a belief in the existence of supernatural forces that affect the lives of individuals and society. This belief leads to certain behaviors, such as worship, prayer, and others (Syafrizal & Suryono, 2018). Talking about the way of worship, one of the ways is Suluk. Speaking of Suluk, Rokan Hulu Regency, most of the population is Muslim, is developing Suluk very rapidly. If you look back on the religious condition of the people in Rokan Hulu, it deserves the nickname “The Land of a Thousand
Suleks”, because in Rokan Hulu Regency, extraordinary Sufism figures have been born. Some of these figures were Sheikh Abdul Wahab Rokan, Sheikh Ismail and other sheikhs (Ellya Roza & Yansel, 2017)

The term is very much in accordance with the conditions of religious education that occurs in the community, where people's lives are always colored by i’tikaf places or houses that are widely available and established and even received support from the government (Ellya Roza & Yansel, 2017).

Rokan Hulu Regency is a district resulting from the division of Kampar Regency, which was established on October 12, 1999, based on Law No. 53 of 1999 and Law No. 11 of 2003 concerning amendments to Indonesian Law No. 53 of 1999, which was strengthened by Constitutional Court Decision No. 010/PUU-1/2004, dated August 26, 2004.

During the reign of Achmad from 2006-2016 Rokan Hulu Regency experienced good development changes, the government that went through these two periods certainly influenced community activities in Rokan Hulu Regency, one of which was Suluk. Suluk in Rokan Hulu Regency has experienced developments, both from the increase in congregations of Suluk followers and from the addition of facilities from Suluk such as the Suluk house or Suluk surau (Nasution, 2021). From them, the people of Rokan Hulu Regency get religious influence so that in Rokan Hulu Regency there are many Suluk surau which are spread over 16 sub-districts (Ismandianto, et al., 2020). The construction of the physical culture of the Suluk house, which has long been financed by the congregation and participants from other people and local government officials in Rokan Hulu Regency, feels compelled to preserve Suluk culture in this area to foster and strengthen mental resilience to face foreign culture and evil.

Departing from this idea, the author considers that this study is quite interesting in describing how the existence of Suluk in Rokan Hulu Regency is the main impetus for the author to study “The Existence of Suluk During the Achmad Administration in Rokan Hulu Regency 2006 - 2016”.

METHODS
In this research, the writer uses historical research method because the writer tends to collect historical sources related to the problem being studied. Gilbert J. Garraghan said, historical research is a systematic set of rules and principles for collecting historical sources effectively, evaluating them critically, and proposing a synthesis of the results achieved in written form. In line with this understanding, Louis Gottschalk describes the historical method as a “process of testing” and analyzing historical testimony in order to find authentic and reliable data, and his attempt to synthesize such
data into a reliable historical story (Dudung, 2007). The historical method as a research method, the principle is to answer the six main questions in history. The questions are what (what), when (when), where (where), who (who), why (why), and how (how), an event occurs (Factor Rahman, 2017).

The purpose of historical research is to make a systematic and objective reconstruction of the past by collecting, evaluating, verifying, and synthesizing evidence to find facts and obtain strong conclusions. So, the authentic source can also be a copy or derivative of the original (Ismaun, 2005). In the historical method there are four steps, namely: Heuristics, Verification, Interpretation, and Historiography. Data were collected through interview techniques, observation techniques, and documentation techniques. The data is data related to the existence of Suluk in Rokan Hulu Regency.

RESULTS AND DISCUSSION
A. Conditions of Suluk Existence During Achmad's reign
Suluk is a ritual worship for the Suluk congregation in Rokan Hulu Regency, worship experts which is a routine agenda. There are Suluk activities carried out for 10 days, 20 days, and some for 40 days. Suluk is carried out in the months of Rabi‘ul Awal, Rajab and Zulhijjah. This Suluk is based on the basis of the Qur’an and Al-Hadith, prayer, remembrance, istighfar, sholawat of the prophet and other acts of worship.

To become a member of the Suluk Jama‘ah or to participate in Suluk activities, it is not actually set. It’s just that for people who want to take part in Suluk activities, they must really intend to follow them, they must really desire in their hearts. In terms of age, it is not limited at all, young and old can become members of Suluk if they really follow the etiquette in Suluk. But the Suluk tariqat naksyabandiyah in this old city are mostly old people who follow it a lot (Rahman, 2020). Every young person who wants to take part in Suluk activities is always rejected, because he is afraid that the child is not serious, or his mind is still unstable. A person can enter Suluk if he has joined the tarekat first. If someone has followed Suluk and then does not follow Suluk then he will not get a sanction because this Suluk is not an obligation but the desire of the heart or oneself.

The activities carried out in Suluk are worship, remembrance, and exploring religious knowledge by carrying out a simple lifestyle. This activity is carried out in a group, but there are also those who do it individually (Hartono, et al., 2020). But more people do it in congregation, namely a year it is done in the month of Muharram, Zulhijjah, Ramadan.

During the reign of Achmad every month of Zulhijjah a haul was held at Surau...
Sheikh Ibrahim by slaughtering cows and distributing them to the surrounding community. Every year Achmad always comes to the haul event or commemorates the death of the previous Mursyid which is held at every main surau, such as in the Surau of Sheikh Ismail, Sheikh Ibrahim, and Surau Suluk Naqsabandiyah (Rashid, 2014). In addition to participating in the haul event during the Achmad administration, there were also wirid or meetings held once a month and attended by mursyids whose place was always different from Surau Suluk in each sub-district.

Surau Suluk in the Seven Layers Fort area already has 100 worshipers, this Surau is in Tambusai District and includes Surau Suluk which is quite old. Unlike the Suluk Surau in Bonai Darussalam District, the Suluk Syekh Muhammad Kayo Megah Surau, the Suluk gathering is held once a year, with 700 congregations. In 2009 from a total of 122 Suluk Suluk houses, the number of rooms for the Suluk Suluk houses was 31.5 m2, which could accommodate 50 members of the Naqsyabandiyah congregation x 122 Suluk houses, meaning approximately 6,100 Naqsyabandiyah congregations spread across the Rokan Hulu district. Each Suluk Surau in the District has a different number of worshipers.

In 2010 as many as 27,000 worshipers spread throughout the District of Rokan Hulu. This number shows a significant increase in the number of pilgrims in Rokan Hulu Regency. Furthermore, in 2012 from 130 units of Surau Suluk, currently there are 20,300 congregations from Rokan Hulu Regency. The number is quite large, in 2 years there has been an increase of 300 worshipers who joined Suluk in Rokan Hulu Regency.

B. Development of Suluk during the reign of Achmad

1. Surau Suluk in Rokan Hulu Regency
The word Surau is a typical term for the Minangkabau community to refer to a place for religious learning and worship. The Suluk surau is a place used to carry out learning for remembrance and practice of knowing oneself, understanding the essence of life, seeking God, and seeking the true truth (ilahiyyah) through forging oneself for life by carrying out outward sharia as well as inner sharia in order to achieve purity of heart to know oneself and Lord (Abduh, 2012).

Surau Suluk in Rokan Hulu Regency generally has Suluk administrators and implementers. As for in a Suluk surau there are Murshid (Teachers), there is a Caliph and there are students. Murshid is a teacher, while the Caliph is someone who helps Murshid in carrying out Suluk activities (Siregar, 2011).

Of course, the Suluk Surau in Rokan Hulu Regency in each sub-district has different numbers and different developments. Are as follows:

Surau Suluk in Rokan Hulu Regency is always experiencing development. Gradually through the Rokan Hulu APBD, a permanent Suluk Surau was built with complete infrastructure in 16 sub-districts. This is done as a form of government attention in the religious field so that people are comfortable in carrying out worship. Surau Suluk in the District will also become an icon of the Land of a Thousand Suluks. In addition to building
Suluk Surau in each District, the construction of the Permanent Suluk Surau is also especially Suluk Suarau which is still active in carrying out religious activities.

C. The Impact of Suluk Existence on Community Life

Suluk basically means improving morals, strengthening belief in the awareness of God's existence, and God's will, the will of the soul and realizing the position of the servant. Suluk means that it will not be separated from the process of purifying the soul that is on the throne in one's heart. In the process of suluk, a person or salik must of course have a murobbin teacher. That is a teacher who can understand physically and mentally about divinity and has carried out and experienced the mystical journey in his life (Hamid, 2016).

The meaning of the Suluk tradition for the community and the Suluk congregation is an activity that has a positive value to approach itself to the almighty and does not interfere with the activities of the surrounding community, because Suluk is one of the traditions that has existed for a long time and is still held today even though not many follow Suluk. but there are still people who are interested in the existence of suluk, the faces that follow suluk look happy and cheerful because they will meet old friends who have not seen each other for a long time, but by following suluk they can meet. And with the age that is not young anymore they only think about the next life and focus more on doing a lot of charity by celebrating them together doing worship in congregation. Suluk congregations also feel peace of mind, serenity, and peace (Personal Interview, May 2021).

For the Suluk community, it also affects a person's behavior by studying the practices taught by the Suluk mursyid to be done in daily life in the form of religious advice, such as remembrance, praying five times a day, giving alms, helping each other and other virtue, so that the activity has become a daily habit of the Suluk congregation. all of that is on his own heart's desire, repenting will make his life much better. The community is also taught to help each other, both fellow Suluk congregations and fellow community members, because the tarekat teachings also convey the importance of social life, and have high sympathy for others, namely helping, inviting in goodness (Wardani & Nurjanis, 2019). The Suluk community is taught to stay in touch, and it is an obligation for the Suluk congregation and to visit each other with fellow Suluk congregations and the surrounding community to increase the closeness and concern for fellow humans so that it binds the ties of brotherhood among each other (Personal Interview Mr Khoirul, 27 May 2021).
Suluk carries out the teachings of Islam which is combined with its Malay customs and customs which are open and respectful of all groups and tribes to mingle and develop together for regional progress. They feel much more understanding of the meaning of life, more able to control anger and increase patience (Damanik, et al., 2021). By following Suluk, they also become more aware of the meaning of prayer, better understand the correct prayer movement, and understand the meaning and intent of the prayer readings. When doing worship at home, the solemnity of worship that they feel is not as big as when Suluk (Personal Interview Mr Jupenri, May 2021).

From the results of interviews with several Suluk congregations, researchers can see that the meaning of Suluk for congregations is to keep on remembrance and remember Allah. For the pilgrims following Suluk is very meaningful, but the most important thing is that they follow the sunnah of the Prophet Muhammad and get closer to Allah SWT. Because the congregation believes that in this way, they can get closer to Allah SWT and increase other acts of worship, not only obligatory worship but also sunnah worship.

CONCLUSION
In closing, based on the descriptions that have been put forward in previous chapters, the author can draw the following conclusions: Suluk is a ritual worship of the Suluk congregation in Rokan Hulu Regency. Suluk is a ritual worship for the Suluk congregation in Rokan Hulu Regency. The activities carried out in Suluk are worship, remembrance, and exploring religious knowledge by carrying out a simple lifestyle. The number of worshipers in Rokan Hulu Regency each year has increased significantly. This indicates that Suluk in Rokan Hulu Regency has become the center of public attention, which in the end the community is interested in joining Suluk. The development of Suluk in Rokan Hulu during the period of Achmad's reign there was progress, this can be seen from the addition of Surau Suluk and the government also participated in assisting the repair of Surau Suluk needed by the management. Not only that, Suluk is included in the flagship program of the Achmad government. This makes Suluk get more attention from the government. The meaning of the Suluk tradition for the community and the Suluk congregation is an activity that has a positive value to approach itself to the almighty and does not interfere with the activities of the surrounding community, because Suluk is one of the traditions that has existed for a long time and is still held today even though not many follow Suluk. but there are still people who are interested in the existence of Suluk. For the Suluk community, it also affects a person's behavior by studying the practices taught...
by the Suluk mursyid to do in daily life in the form of religious advice, so that this activity has become a daily habit of Suluk congregations. All of that is on his own heart’s desire, repenting will make his life much better. The community is also taught to help each other, both fellow Suluk congregations and fellow community members, because the tarekat teachings also convey the importance of social life, and have high sympathy for others, namely helping, inviting in goodness. The Suluk community is taught to stay in touch, and it is an obligation for the Suluk congregation and to visit each other with fellow Suluk congregations and the surrounding community to increase the closeness and concern for fellow humans so that it binds the ties of brotherhood among each other.
